Work Experience

Product Designer • Develop for Good
Apr 2021 - Present | Stanford, CA (Remote)

- Partnered with the product manager to plan the strategy and scope of the project.
- Identified necessities, goals, and pain points of the current experience by conducting user interviews with project volunteers.
- Working in the redesign of the website Develop for Good, fixing the problems found in the research phase.

Web Designer • Product Classroom
Apr 2021 - Present | Providence, RI (Remote)

- Collaborated in the definition of scope, structure, and skeleton of the website Product Classroom.
- Developing the website that wants to make learning product design more accessible to students from all backgrounds and majors.

Product Designer • LEAA A.C
Jul 2020 - Mar 2021 | Mexico City, Mex

- Participated in the entire design process of the app Moviteca, from creating user flows and wireframes to building user interface mockups and prototypes.
- Increased book sales by 20% by redesigning and restructuring the website Creando Lectores.
- Reduced the bouncing rate by 43% by designing and developing the custom WordPress theme for the website Colectiva.
- Collaborated with the product manager to define the requirements and goals of 3 projects.

Front End Developer • Musicat
Oct 2019 - Jan 2021 | Mexico City, Mex

- Incremented web traffic by 60% by fixing usability problems and enhancing the visual design of the website Red Digital.
- Conducted rounds of usability testing to find pain points, gather feedback, and repairing problems in future iterations.
- Partnered with designers and engineers to build over 4 websites that show the investigations about the cathedrals of Mexico.
